

Materials Research Outreach Program

The Materials Research Outreach Program (MROP) of the MRL at UCSB is an exciting 3-day forum for outreach and collaboration with industry and national laboratories.

- The success of the MROP program was recently recognized by an Industry University Cooperative Research Award from the State of California and California Industry together with co-sponsorship of the event.
- 2006 meeting attracted over 200 participants with 75 non-UCSB attendees from 31 different companies and 6 foreign organizations.
- 5 half-day sessions included speakers from UCSB (students and faculty - 18), ex-MRL students (4) and industry (6).
