Why Tokyo Tech?

Tokyo Tech, the top national university for science and technology in Japan with a history spanning more than 140 years, has formulated a new education system which was launched in April 2016 with the aim of becoming one of the world's top 10 research universities.

Tokyo Tech continues to develop global leaders in the fields of science and technology, and contributes to the betterment of society through its research, focusing on technical solutions to solve global problems.

Why SERP?

SERP is a summer exchange research program that provides engineering students an opportunity to undertake a self-directed research project on a topic of their own choosing under faculty supervision.

Furthermore, by undertaking research in Tokyo, participants are exposed to Japanese high-technology, food and culture which allows development of cross-cultural communication and leadership skills.
