

MRL 2053 Setup

After all connections are made, open Zoom and:

1. Select the camera on Zoom to Logitech Brio
2. Select the microphone to EVO4 (turn on phantom power using the 48V button)
3. Select the speaker as EVO4 (make sure the power to the speakers is turned on)
4. Set up the screen as desired
5. No one else in the room should join the sound
6. Use features in Zoom to test audio. Recording and playing back is also useful.
